

Cranberry Technology Solutions keeps your systems running when you need them the most.

Whatever your problem is, we have the experience to deliver the results you need.

We offer high quality, reliable and affordable technical support solutions and preventative maintenance to businesses of all sizes whether you have 1 computer or 100.

Our expertise also spans across all platforms - Windows, Mac, Linux and UNIX. We have the knowledge to support and integrate all of them efficiently and reliably.

TIPS FOR SAFE COMPUTING

1. Install anti-virus and spyware software, making sure it is up-to-date.
2. Never open unsolicited email attachments, even if they are from someone you know.
3. Back up your data on a regular basis.
4. Keep your operating system up-to-date with the latest security patches.
5. Use an alternate web browser such as Firefox or Opera.
6. Create a strong login password consisting of upper-case, lower-case and numbers.
7. Use a hardware or software firewall when accessing the Internet.
8. Never provide personal information in response to any email message.

How much will you lose if your computer quits working tomorrow?

Time is Money...
