Our Team, Your Partners

DAVE TREMEL

Dave has 9 years of extensive experience developing and supporting personal and business computer networks and infrastructures.

He is an expert in computer trouble-shooting, server and network administration, and application support and development. More importantly, Dave can communicate complex technical concepts to non-technical personnel.

CRANBERRY TECHNOLOGY SOLUTIONS

Delivering technology solutions that work

TIM QUINLAN

Tim has 11 years of information technology experience with a focus on technical analysis, infrastructure design, system administration, group leadership, application design, development and maintenance.

He received a Fortune 500 company's highest award for designing and implementing a self-service application that provided information to customers from legacy systems via the telephone and Internet.
